

## Wiring Diagram: Spider W5-B, Populus O-1-A

Connect Populus to the Spider W5-B power supply as shown in the diagram with a standard UTP cable.

For distances greater than 25m, use one twisted pair of UTP cable for each pole ( + and -).

The cable length between the power supply and the Populus should not exceed 50m. Connect the Spider W5-B to the mains power 110-230V AC with the enclosed power cord.
